First anniversary of The Great War on Communism   6 March, 1953

The 5th of March 1953 marks the first anniversary of "The Great War on Communism" where nations of Europe and beyond united against the Bolshevik plague. On this day many parades were held around the World, but the biggest and the most splendorous one in Berlin where columns of soldiers and tanks rolled through the Brandenburg Gate accompanied by the highest officials of the Reich. Many prominent figures from other countries were also invited to the parade, including US Vice President Richard Nixon (who attended the event even despite US-German relations getting colder and colder) and Japanese Prince Mikasa. However the culminative moment of the whole event, our Führer's speech, were yet to come.

As you may know, Victoria 3 is under construction and will be released sometime in the next year or two. While I will try to fix as much as I can, there is no guarantee that I can fix them all. In light of all of these, it is likely that there is only one final version left for this mod before the change to Victoria 3. If the separatist rebels capture the capital, then all provinces owned with nuclei by foreign nations will be ceded, while if the nationalist rebels occupy all the nuclei of their tag country, then the nation will be liberated as an independent nation. It has been divided into a few categories, including: Security (antivirus and firewall software, among others), System Tools (improving Windows systems), and Audio and Video (everything you need to play audio and video files on your PC). In the CWE, national values are determined by the ideology of your population. In addition, the techniques have also been adjusted. Italy is walking between Communism and Democracy. (2) This can be problematic for some stakeholders who like to keep their national value constant. Page 7 Coaches for games, whose titles begin with #. Eastern Europe is under the Soviet orbit and with each passing moment the strangulation of the USSR increases. In 1.13, a new system was created to enable stakeholders to interact more directly with national values. Thus, a decision called "Constitutionalisation of National Values" was taken to fix the current NV until the abrogation of the decision. If anyone wishes to continue working in CWE after the switch, you are free to make a submod and continue from there. This triggered a chain reaction that reverberated around the world and ate the decent of the USSR in a pandemic cliff that culminated in his disagreement. Many others are µ and small µ. For example, Hawaii now comes as a self-governing colony that can decide whether to join the U.S. as the 49th state or to become independent. And with globalization and the change in geopolitical power towards the east, this is increasingly a question of whether, but when. However, it will not last long in this new multi-polar world with the rise of the new centers of power in the ambitions and the populace. One of the biggest problems with the mod so far was that the dates and names of unlocking the technology often did not make sense. For players it is a special category containing mandatory software for players, such as GPU drivers, video game console emulation software and clients for different digital distribution platforms (such as Steam, Uplay and Origin). Germany is divided between the victorious nations of the Second World War, the United States, the Soviet Union, the United Kingdom and France. In this renewed competitive multipolar world, nations will join what are initially trade blocs and eventually, in some cases, large centralized trade union states like the European Union, the South American Union and the African Union to accompany the world. Vietnam rebelled against its French colonial masters, while in Southeast Asia the Dutch are fighting to keep control over their empire and with it the era of decolonisation has begun. 3. The changes include: 1. This has helped reduce the number of annoying wars in the mod. CB requirements have also been tweaked to make it such that AI nations would not engage in humiliate or territorial dispute wars unless their war policy is jingoism. Revision of country names and flags to be more in line with historical ones. 9. In south of Europe a power struggle in between communists and governments is raging. The CWE team would however continue to work on the mod until at least the time when Victoria 3's release date is announced. The patches work only with original retail versions of the games. Before 1.14, there was a bug in the code that prevented separatist and nationalist rebels from properly releasing the nation if the rebels won. Graphical updates. This means that the time is coming for this mod to close the curtains and move on to the new game. Updates can change games in various ways. Instructions: Copy CWE and CWE.mod from the CWE zip file to the mod directory of your Victoria 2 installation. Creator: settintotrieste Major contributors: TheRop, Pippo_Franchino, ARR8, echasovikov A short summary of the mod: CWE is a mod that aims to provide a polished overall Cold War era gameplay. For example, events were added to Mongolia to allow them to choose between staying communist, becoming a socialist democracy or to democratise into a new regime. 10. Updates can also improve game balance (for example by changing the power of attacks of certain enemies in RPGs), enhance available settingsÂÂ§ÂÂ configuration, improve the graphics, and even enhance the game content with additional missions, units, vehicles or characters çÂÂ it all depends on the genre of the given game.
